

SOUTH WEST ASSURED

Strategic support for your infrastructure

● Take the first step with us!

ABOUT US

We provide practical, boots-on-the-ground engineering insight with a strategic mindset. Founded by a seasoned, multi-skilled engineer

With over a decade of experience across marine, offshore, and facilities sectors.

We exist to fill a gap that many estates, vessels, and infrastructure assets face: a clear understanding of their plant and equipment.

OUR MISSION

To bridge the knowledge and documentation gap by offering:

- A clear, detailed understanding of your existing plant and machinery.
- Professional reports, data, and asset registers.
- Strategic insight for proactive maintenance planning and effective spares sourcing.

WHY CHOOSE US?

EXPERIENCED ADVICE

We've worked alongside estate managers, facilities teams, vessel operators, superintendents and more.

Who have the technical background but lack the time to catalog, evaluate, and manage their plant rooms effectively. That's where we come in.

PERSONALISED

We understand that each client has unique needs. Our approach is personal, ensuring that every solution is customised to align with your goals.

INTEGRITY

We value trust and transparency, offering objective advice. Ultimately securing the right outcome.

OUR SERVICES

CAD / Specialist Services

- 2D CAD drawings and schematic updates
- Plantroom layout Drawings
- 3D Scanning, Matterport surveys
- Thermal imaging, plant heat loss assessments, vibration checks, and traffic light condition grading

Lifecycle & Feasibility Assessments

- Evaluation of asset health and replacement timelines
- Repair vs replacement cost analysis
- Risk-based prioritisation for capital investment planning

Bespoke Procurement Support

- Support sourcing obsolete or specialist parts
- Supply chain research for equivalents and lead time options
- Consolidated spare parts register with supplier suggestions

Asset Surveying & Condition Reporting

- Detailed plant and equipment surveys
- Capture of key data: model, serial, voltage, kW rating, Dimensions etc.
- Asset tagging tailored to client systems for future traceability
- Delivered in clear, structured reports

MORE THAN A CHECKLIST

The services outlined here are just a snapshot of how we can help your business run more smoothly and strategically. With senior-level engineering and management experience, we're equipped to support you well beyond asset surveying.

Whether you need:

- Technical troubleshooting and diagnostics
- Project management or commissioning support
- Focused risk assessments and mitigation planning
- Interim engineering leadership or advisory input

We're here to help.

Feel free to reach out to discuss our qualifications and explore how South West Assured Engineering can best support your operational goals.
